Company Profile

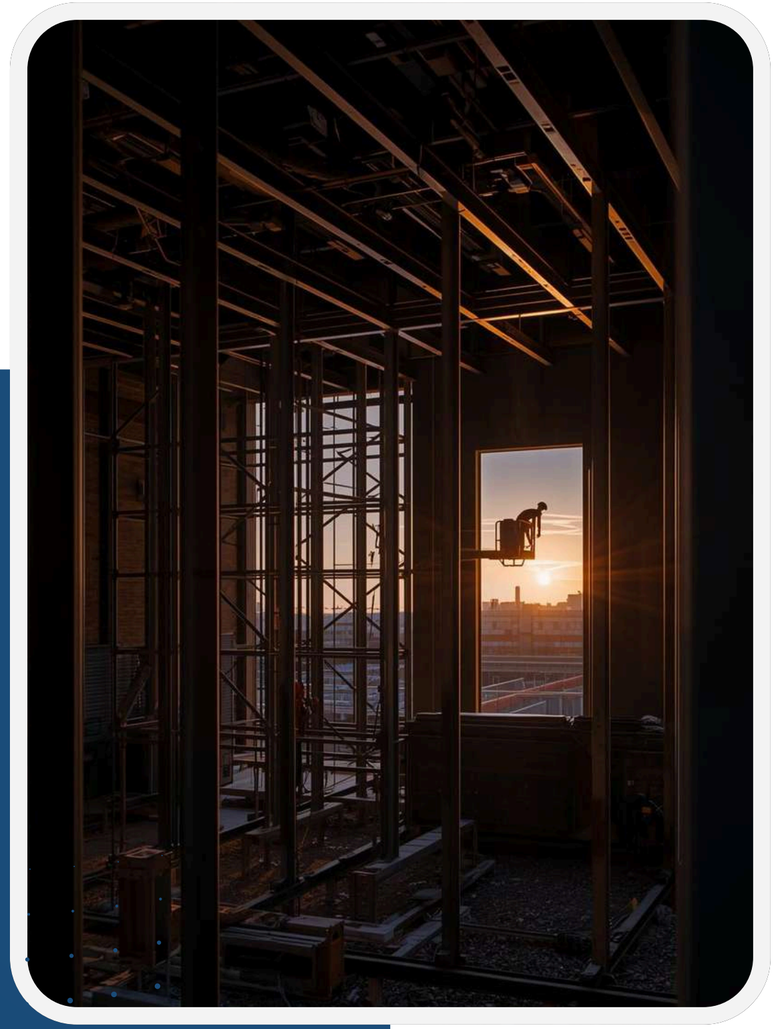
Why VajraCore?

Founded on a legacy of precision engineering, VajraCore delivers excellence across MEP, civil construction, and structural fabrication with unwavering commitment to quality and safety.

VajraCore Engineering Services

Our Core Services

- MEP Contracting & Systems Integration
- Structural Steel Fabrication
- Civil Construction & Infrastructure
- Precision Core Cutting & Drilling Services



Advanced Capabilities

Precision Core Cutting

Advanced Equipment

Diamond-tipped equipment for concrete, masonry, and reinforced structures

Precision Accuracy

Computer-guided systems ensure millimeter-accurate cuts every time

Diverse Applications

HVAC openings, plumbing penetrations, and structural modifications

Core Team Expertise

Leadership Driving Engineering Excellence

Our team of experienced engineers and project managers brings decades of expertise in MEP systems, civil construction, and structural fabrication to every VajraCore project.

1. Certified Excellence

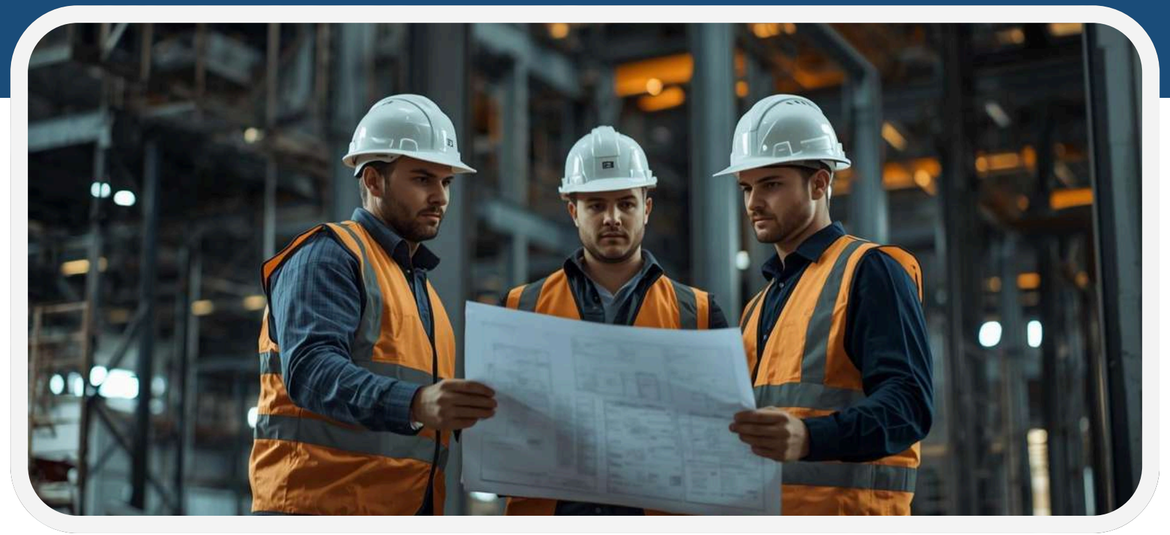
Our engineers hold PE, PMP, and LEED certifications with specialized MEP and structural credentials.

1. Deep Experience

Combined 150+ years of experience across industrial, commercial, and infrastructure sectors.

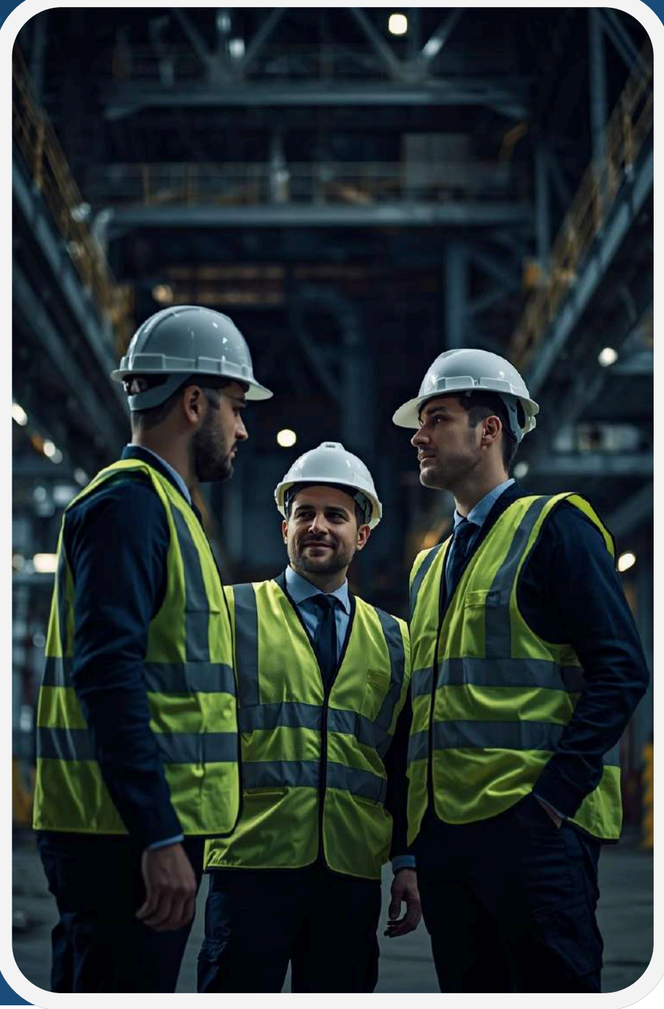
1. Proven Portfolio

500+ successfully delivered projects including refineries, high-rises, and precision installations.

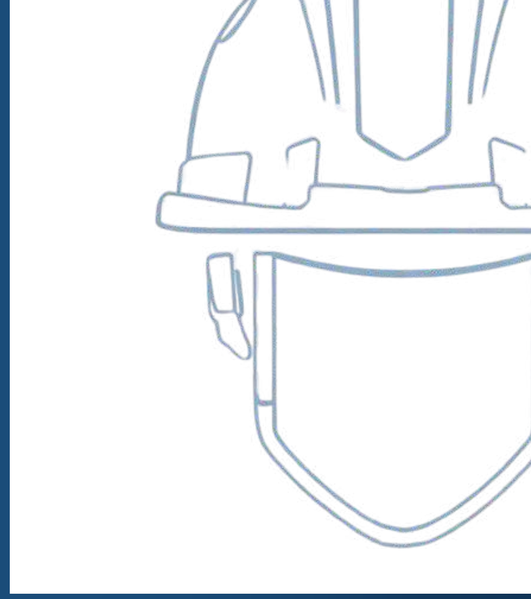


VajraCore Engineering Services

Core Team Expertise



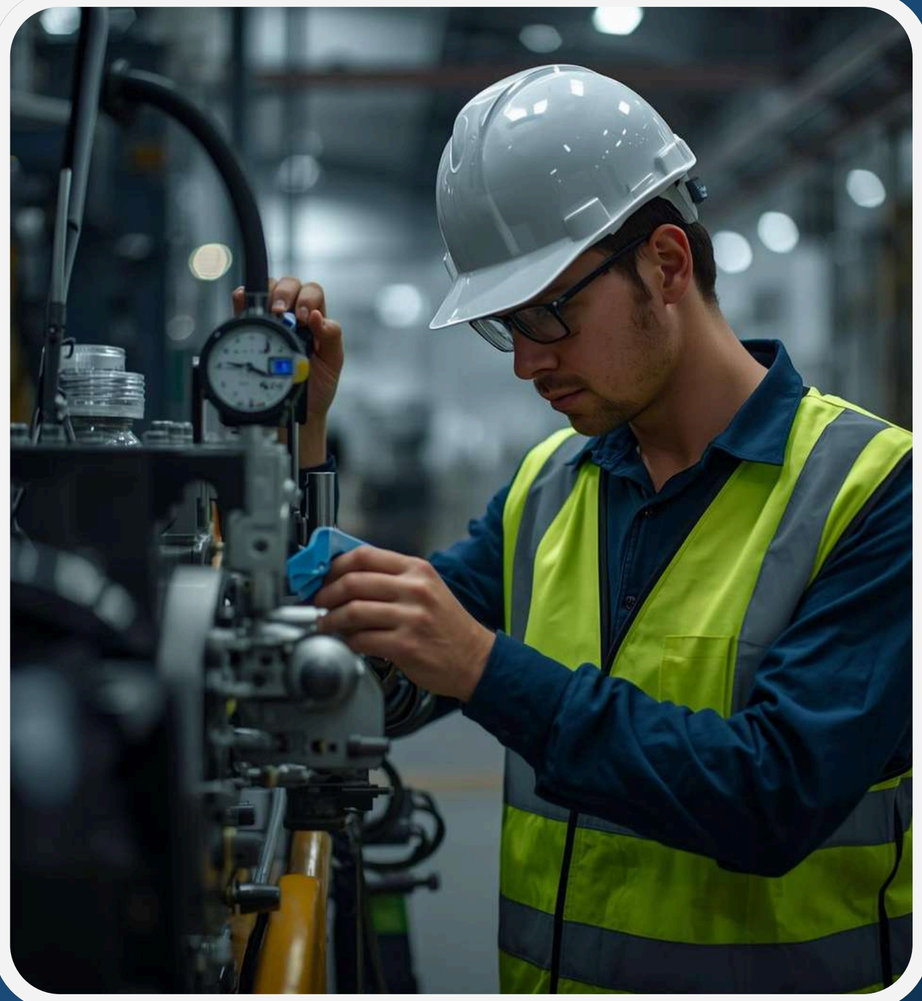
Safety Standards



- OSHA & ISO 45001 certified compliance protocols
- Comprehensive safety training programs for all personnel
- Zero-incident goal with 2M+ safe work hours achieved

Quality Assurance Excellence

- ISO 9001:2015 certified quality management systems across all operations
- Rigorous multi-stage inspection protocols at every project milestone
- 98% client satisfaction rate with dedicated quality assurance teams



Project Excellence Portfolio

Notable Achievements

- Al Maktoum Airport Terminal MEP Systems Installation
- Dubai Marina Tower Structural Steel Fabrication
- DEWA Substation Civil Construction & Core Cutting
